SUMMARY

Full stack developer working mostly in TypeScript. I like small services, boring deployments and interfaces that survive contact with real users.

EXPERIENCE

Full Stack Developer

Verity Health, San Francisco

Apr 2022 - Present

- " Built the patient intake flow used by nine clinics
- " Replaced a nightly CSV export with a documented API
- " Wrote the migration that de-duplicated four years of appointment records

Web Developer

Kestrel Digital, Remote

Jan 2020 - Mar 2022

- " Delivered client sites on Next.js with a shared component package
- " Set up preview deployments so clients stopped reviewing screenshots

EDUCATION

BS Computer Science, San Jose State University, 2015 - 2019

SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS

Backend: Node.js, PostgreSQL, Prisma, tRPC

Infrastructure: Vercel, Docker, GitHub Actions

PROJECTS

Ledgerly - personal finance tracker. Live at ledgerly.app, source at github.com/priyanair/ledgerly.
