PROFESSIONAL SUMMARY

React Native developer with four years of experience building cross-platform apps for retail and logistics teams. Comfortable owning a feature from design review through store release, and happiest working close to the people using the product.

WORK EXPERIENCE

Senior React Native Developer

Northwind Labs, Ahmedabad

Mar 2023 - Present

- " Rebuilt the order tracking screen, cutting Android crash reports reported by support
- " Introduced a shared component library used by three product squads
- " Set up over-the-air release checks so regressions are caught before store submission

React Native Developer

Kite Studio, Remote

Jul 2021 - Feb 2023

- " Shipped an offline-first delivery app used by warehouse staff on low-end devices
- " Migrated the codebase to TypeScript alongside two other developers
- " Added end-to-end tests for the checkout flow with Detox

EDUCATION

B.E. Computer Engineering

Gujarat Technological University

2017 - 2021

8.4 CGPA
